PROGETTO X² + PLUS

A new standard of comfort. Progetto X2 Plus is the latest addition to our fondello platform. Developed through rigorous testing and shaped by extensive rider feedback. Built for those who expect consistent performance from a key component of the bibshort.

PROGETTO X² SEAMLESS

Pro-level seat pad for maximum comfort. New seamless skin-care layer is softer against the skin and reduces abrasion. Separate saddle-shaped cushioning layer with progressive damping through high-density foam and gel inserts.

KISS AIR EVO

We've updated the shape of both the cushioning layer and the skincare layer, bringing a more modern, anatomical fit to the construction. The result is improved contact and better pressure distribution over extended time in the saddle.

KISS TRI

Specifically designed for the triathlete. Minimum bulk doesn't get in the way during the swim and run legs. Extra fast drying foam prevents chafing on the bike.
