CASTELLI

A NEW MARK IN CASTELLI HISTORY

For 50 years, the scorpion has been more than a symbol—it's who we are. It represents our relentless pursuit of perfection in everything we touch. This same unwavering spirit drives cyclists, those who push beyond limits in their pursuit of victory, fueled by dedication and an unstoppable will to win.

The new brand identity speaks to a modern, no-nonsense design philosophy, while staying true to the legacy that built this company. It is the cornerstone of every Castelli visual, with no exceptions. Bold, timeless, and unmistakable.

The new Castelli logo and wordmark
applied to the new SS26 products

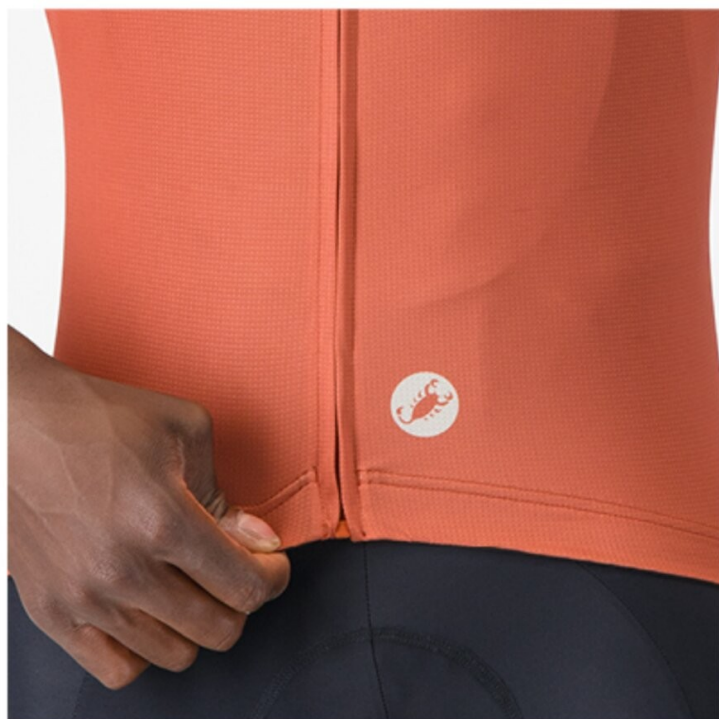

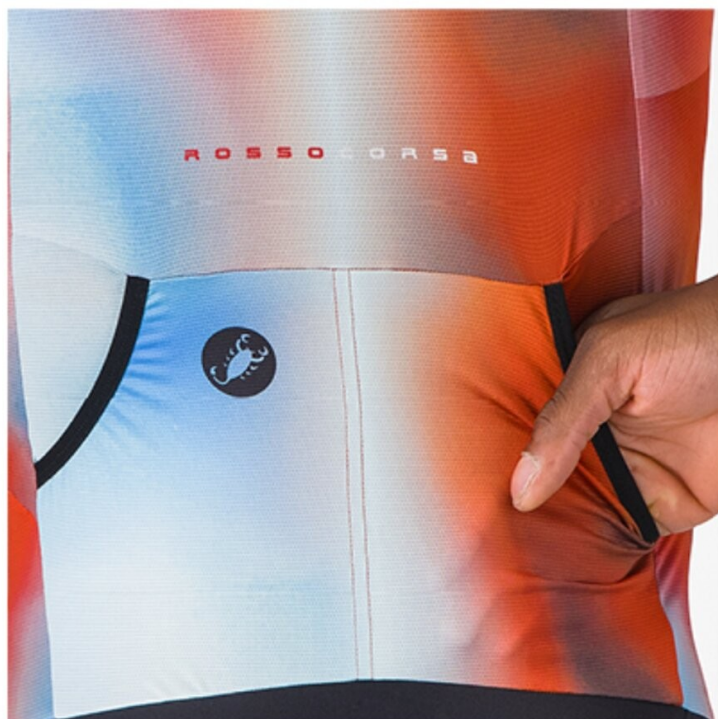

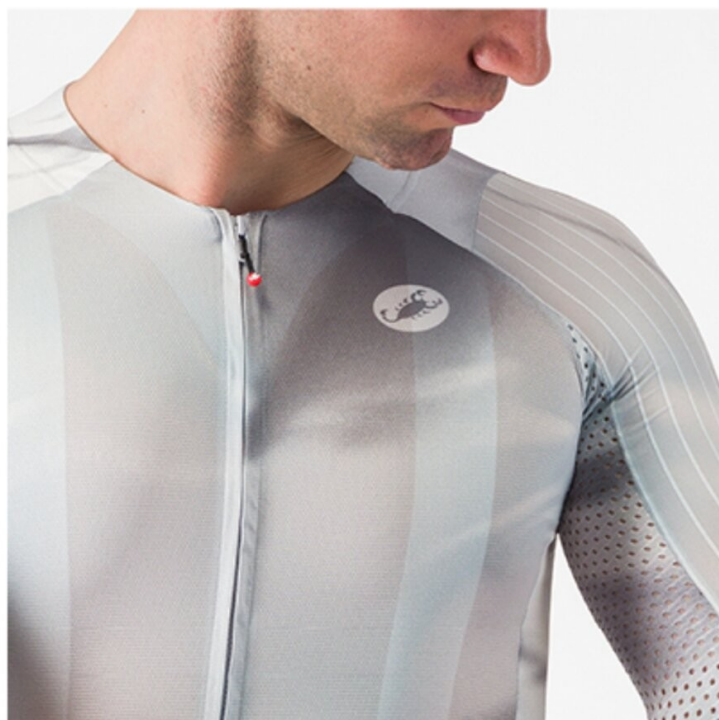

CASTELLI

CASTELLI

Wordmark and logo plays a distinct role:
the Wordmark speaks—it's meant to be read.
The Scorpion, on the other hand, is instantly recognized.

This balance is essential, allowing the brand to not only,
be heard' but also, be seen' with equal impact.

YOUR FAVOURITE BIBSHORT. REVISED & REFINED. 2.0

This started with our favourite bibshort—the one we reach for every ride. But staying still isn't in our nature. Driven by our obsession with performance, design, and innovation, we looked for every opportunity to refine. Subtle adjustments in fit, improved construction details, and fabric updates to our bibstraps that push comfort and efficiency just that little bit further. Not a revolution, but a series of gains that add up on the road.

This update also marks something bigger: the introduction of our new logo. A cleaner, more confident identity that reflects where we're heading—without forgetting where we've come from.

The result? The best bibshort we've ever made.

ENDURANCE-LEVEL COMFORT

The heart of this short is our renowned top-of-the-line Progetto X2 Air Seamless seat pad, expertly combined with a classic short design. But comfort doesn't stop there — every detail has been meticulously refined to support you on your longest endurance rides.

A great pad is only effective when paired with a perfect fit. That's why we've carefully placed seams around the hips to ensure an ergonomic, bike-ready shape. The Endurance Evolution fabric feels soft against the skin while offering excellent compression and superior moisture management.

Everything stays securely in place thanks to the incredibly comfortable G1R03 leg gripper. Delivering exceptional value, this short is built to provide lasting comfort mile after mile.

SATURDAY MORNING SKINSUIT

You will not see this skinsuit being raced in the World Tour. That's because we wanted this skinsuit to function for the saturday morning social rider where you know the pace will be anything but social. We all know the type of ride, you turn up at the meeting point and high 5 your friends before spending the rest of the ride trying to drop one another. We approve this type of social ride. The design of the skinsuit is bold and bright, because if you are sitting on the front of the group setting the saturday morning tempo then you should be instantly recognised for this selfless act of making others hold on to the wheel in front in silence.

THE FASTEST SUIT FOR RACING AGAINST THE CLOCK

Having access to the fastest riders in the world definitely has its benefits. And thanks to the UCI rules meaning we need to make this product commercially available, those benefits can also be offered to you. After spending countless hours in the wind tunnel at the Politecnico University of Milano we have tested and optimised this new Body Paint V TT suit to be the fast for the widest range of conditions. The real benefits of the suit are felt at speeds above 45 km/h and the suit is optimised for extreme time trial positions. The fabrics and materials are intricately sourced and placed together, to ensure we see the best results in the wind tunnel and on the road.

A photograph of a wall with vertical stripes of light and dark colors. There are three rectangular openings in the wall. The first two are on the left, and the third is on the right. The text "MEN'S JERSEYS" is overlaid on the wall.

MORE THAN A
DECADE OF SPEED,
INNOVATION AND
KNOWLEDGE.
**OUR FASTEST JERSEY
IS NOW EVEN
FASTER.**

In the world of performance cycling, we seek out more watts and more speed from our equipment. Dressing for speed is one of the best ways to get faster, since 80% of the drag on a cyclist comes from the body.

Drawing on more than a decade of innovation and knowledge in making professional riders faster, the aero race 8s jersey is the result of using the most modern methods and fabrics to create the fastest jersey we've ever made. The s stands for „Speed.“ the sleeve construction uses cfd engineering for optimal seam placement. The engineered ribbed shoulder fabric has been designed specifically for the greatest aerodynamic advantage at race speeds, with a cda savings of up to 6% over previous aero jerseys.

The rest of the jersey is designed for maximum comfort. The body fabric is smooth and stretchy, allowing for a perfect fit, and it feels great against the skin. The elastic at the waist keeps the jersey in place while supporting the three back pockets when they are loaded. The aero race 8s jersey is the ultimate piece of equipment to help you turn your watts into speed.

WHEN ESPRESSO IS NOT ENOUGH CORRETTO

In the bars of our local Veneto region there's a ritual we love:
a shot of espresso "corrected" with a splash of grappa - caffè corretto.

A small gesture with big character. That same spirit inspired the Corretto Jersey. Corretto in Italian means "corrected" or "refined."
This jersey reflects that idea—an evolution of our design language with sharper graphics, bolder lines, and a confident new energy.

It's rooted in tradition, but distinctly modern. Like the drink, the Corretto Jersey blends two elements into one: performance and personality.
Clean, expressive, and unmistakably Castelli.

Like the drink, the Corretto Jersey blends two elements into one: performance and personality.

Clean, expressive, and unmistakably Castelli. This long sleeve jersey features the same light and aero fabrics and cut as our Corretto short sleeve jersey making it ideal for those cool spring and fall days when you need some extra coverage but want to stay light and fast.

espresso
CASTELLI

**YOUR FAVOURITE
JERSEY.
REVISED & REFINED.
2.0**

When we set out to make the original Espresso Jersey, we wanted the jersey that we'd always reach for no matter if you normally wear an aero race-fit jersey or a more regular cut jersey. We developed a fabric that would allow for a close-to-body fit without being constrictive or feeling tight. Our proprietary Air_0 fabric also offers great breathability and moisture management, and amazingly tests well in the wind tunnel.

With innovation in our DNA and a healthy obsession for details, we set about perfecting our favourite jersey. The updates for Espresso 2.0 Jersey include even better fit: close to body but never restricting. We focused a lot of attention on improving the pocket structure, giving even better support and compression while reducing pocket sag and we added a nice finish to the edge.

Of course the 4th zip pocket remains as an essential for valuables. You can find the updated subtle logos in tone on tone color, and our signature red scorpion on the zipper puller.

TWILIGHT BLUE/WINTER SKY

A male cyclist is shown in a dynamic, low-cadence riding posture on a road bike. He is wearing a white long-sleeved jersey with blue accents, black cycling shorts, white socks, and white shoes. He is also wearing a white helmet and blue-tinted sunglasses. The bike is a light blue road bike with black handlebars and wheels. In the background, there are large, colorful Japanese carp streamers (koinobori) hanging vertically. The streamers are white with blue and red patterns, depicting carp. The background also features a white building with a yellow roof and lush green trees. The text "MEN'S HOT WEATHER PRODUCTS" is overlaid in the center of the image.

A dark, dense forest scene with the text "MEN'S UNLIMITED" overlaid. The background is a thick wall of green foliage and trees, mostly in shadow, with some light filtering through the leaves. The text is white and centered horizontally.

MEN'S UNLIMITED

Feed Zones in Gravel racing have become increasingly risky and stressful, with this speedsuit you should be able to fly right through them risk free. The jersey fabric gives UPF 30 protection to block 97% of UV rays for your longest races.

With the popularity of Gravel Racing continuing to grow and the racing getting increasingly faster, we felt the time was right to unleash all of the Rosso Corsa experience and knowledge we had gained from the road and apply it to the Gravel surface.

We also applied the hydration pouch from our Unlimited Pro Jersey to keep the hydration bladder stored safely and securely.

GRAVEL RACING,
WE PRESENT
TO YOU -
ROSSO CORSA

We optimised our Sanremo S Speedsuit by adding nutrition pockets on the central quad position of the leg to allow quick simple access to gels and bars. By placing the pockets on the front even full pockets will not increase aero drag like side pockets, while also preventing contents from bouncing as much

A close-up photograph of a cyclist's lower leg and foot. The cyclist is wearing a white sock with a textured, ribbed pattern and a white cycling shoe with two white dials. The shoe has the word "QUOC" printed on the side. The cyclist is pedaling a black bike, with the chain and gears visible. The background is a solid dark grey.

FAST, FIRST. SOCK, ALWAYS.

We set out to make an aero sock that doesn't compromise on the things that make a great sock. Working with expert Italian knitters and state-of-the-art machinery, we created a structure that combines smooth and textured zones to control airflow and reduce drag — without sacrificing comfort or fit. The result is a sock that stays up, feels great, and delivers aero performance equal to ribbed Lycra® cuffs — with the bonus of true everyday wearability.

Fully Waterproof	Front and Back

The next generation of Foul Weather Race Equipment has arrived. The Gabba R Jacket short sleeve is more protective and more aerodynamic than ever before.

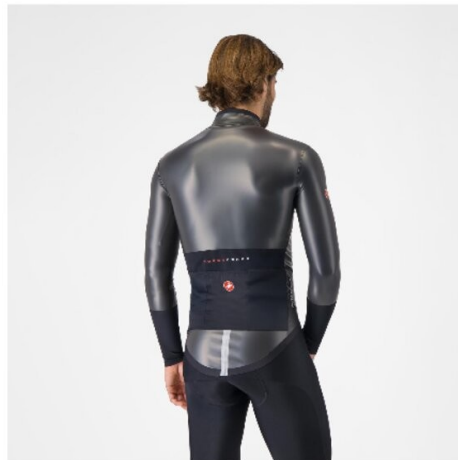

Castelli exclusive fabric with a microporous electro-spun hydrophilic polyurethane membrane
The external membrane keeps it light and breathable while avoiding an external textile layer that holds moisture next to the membrane
The fabric weighs just 125gr /m2 and stretches to at least double the original dimension in each direction
The inner fabric backer is 78% polyester / 22% elastane to maintain the extreme stretch while enhancing breathability
The polyurethane membrane has been formulated to be more hydrophobic than standard polyurethane.
YKK® Vislon® waterproof zipper
3 rear mesh pockets for drainage
Drop tail with reflective stripe
The membrane and entire fabrics are PFAS-free

NOT YOUR OLD-STYLE WIND JACKET

The Aria Jacket has always been one of the most functional pieces in our lineup. Now, it's better than ever. We've refined the fit for improved ergonomics and added reflective details through our new logo and wordmark, making you more visible without compromising style. It's still impossibly light, still blocks the wind where it counts, and still breathes thanks to the mesh side panels.

But now it fits even closer, thanks to updated stretch panels through the sides and sleeves—eliminating flapping fabric and sealing out cold air. It's the kind of jacket you'll wear for the entire ride in mild conditions. And if the temperature rises, it packs away easily into its own side pocket to disappear in your jersey or seat bag.

Classic, evolved. Performance, enhanced.

ARIA 2 VEST

NEAR WEIGHTLESS PROTECTION

The Aria Vest has always been one of the most versatile pieces in our collection. Now, it's even better. We've refined the fit for a more ergonomic shape and added reflective elements through our updated logo and wordmark, enhancing visibility while keeping the aesthetic clean and modern.

It blocks wind where it matters most, breathes through mesh side panels, and fits close to the body thanks to stretch inserts on the sides and shoulders—no flapping, no drag, no bulk. It's the ideal layer for cool starts, long descents, or unpredictable weather, and when things heat up, it packs down into its own pocket to disappear into your jersey or saddlebag.

Minimal weight. Maximum function. A staple, for every ride.

SQUADRA STRETCH JACKET

PROGETTO X²

Pro-level seat pad for maximum comfort. New seamless skin-care layer is softer against the skin and reduces abrasion. Separate saddle-shaped cushioning layer with progressive damping through high-density foam and gel inserts.

KISS^{air}2

High-performance seat pad for all conditions. Single-piece construction with infinitely variable thickness. Updated with more supportive padding and a softer, stretchier fabric next to the skin.

KISS^{TRI}

Specifically designed for the triathlete. Minimum bulk doesn't get in the way during the swim and run legs. Extra fast drying foam prevents chafing on the bike.
