CASTELLI

A NEW MARK
IN CASTELLI HISTORY

For 50 years, the scorpion has been more than a symbol—it's who we are. It represents our relentless pursuit of perfection in everything we touch. This same unwavering spirit drives cyclists, those who push beyond limits in their pursuit of victory, fueled by dedication and an unstoppable will to win.

The new brand identity speaks to a modern, no-nonsense design philosophy, while staying true to the legacy that built this company. It is the cornerstone of every Castelli visual, with no exceptions. Bold, timeless, and unmistakable.

CASTELLI

Wordmark and logo plays a distinct role: the Wordmark speaks—it's meant to be read. The Scorpion, on the other hand, is instantly recognized.

This balance is essential, allowing the brand to not only, be heard' but also, be seen' with equal impact.

YOUR FAVOURITE BIBSHORT. REVISED & REFINED. 2.0

This started with our favourite bibshort—the one we reach for every ride. But staying still isn't in our nature. Driven by our obsession with performance, design, and innovation, we looked for every opportunity to refine. Subtle adjustments in fit, improved construction details, and fabric updates to our bibstraps that push comfort and efficiency just that little bit further. Not a revolution, but a series of gains that add up on the road.

This update also marks something bigger: the introduction of our new logo. A cleaner, more confident identity that reflects where we're heading—without forgetting where we've come from.

The result? The best bibshort we've ever made.

You will not see this skinsuit being raced in the World Tour. That's because we wanted this skinsuit to function for the saturday morning social rider where you know the pace will be anything but social. We all know the type of ride, you turn up at the meeting point and high 5 your friends before spending the rest of the ride trying to drop one another. We approve this type of social ride. The design of the skinsuit is bold and bright, because if you are sitting on the front of the group setting the saturday morning tempo then you should be instantly recognised for this selfless act of making others hold on to the wheel in front in silence.

THE FASTEST SUIT FOR RACING AGAINST THE CLOCK

Having access to the fastest riders in the world definitely has it's benefits. And thanks to the UCI rules meaning we need to make this product commercially available, those benefits can also be offered to you. After spending countless hours in the wind tunnel at the Politecnico University of Milano we have tested and optimised this new Body Paint V TT suit to be the fast for the widest range of conditions. The real benefits of the suit are felt at speeds above 45 km/h and the suit is optimised for extreme time trial positions. The fabrics and materials are intricately sourced and placed together, to ensure we see the best results in the wind tunnel and on the road.

MORE THAN A
DECADE OF SPEED,
INNOVATION AND
KNOWLEDGE.

OUR FASTEST JERSEY IS NOW EVEN FASTER.

In the world of performance cycling, we seek out more watts and more speed from our equipment. Dressing for speed is one of the best ways to get faster, since 80% of the drag on a cyclist comes from the body.

Drawing on more than a decade of innovation and knowledge in making professional riders faster, the aero race 8s jersey is the result of using the most modern methods and fabrics to create the fastest jersey we've ever made. The s stands for "Speed." the sleeve construction uses cfd engineering for optimal seam placement. The engineered ribbed shoulder fabric has been designed specifically for the greatest aerodynamic advantage at race speeds, with a cda savings of up to 6% over previous aero jerseys.

The rest of the jersey is designed for maximum comfort. The body fabric is smooth and stretchy, allowing for a perfect fit, and it feels great against the skin. The elastic at the waist keeps the jersey in place while supporting the three back pockets when they are loaded. The aero race 8s jersey is the ultimate piece of equipment to help you turn your watts into speed.

In the bars of our local Veneto region there's a ritual we love: a shot of espresso "corrected" with a splash of grappa caffè corretto. A small gesture with big character.

That same spirit inspired the Corretto Jersey. Corretto in Italian means "corrected" or "refined." This jersey reflects that idea—an evolution of our design language with sharper graphics, bolder lines, and a confident new energy. It's rooted in tradition, but distinctly modern.

Like the drink, the Corretto Jersey blends two elements into one: performance and personality. Clean, expressive, and unmistakably Castelli.

YOUR FAVOURITE
JERSEY.
REVISED & REFINED.
2.0

When we set out to make the original Espresso Jersey, we wanted the jersey that we'd always reach for no matter if you normally wear an aero race-fit jersey or a more regular cut jersey. We developed a fabric that would allow for a close-to-body fit without being constrictive or feeling tight. Our proprietary Air_O fabric also offers great breathability and moisture management, and amazingly tests well in the wind tunnel.

With innovation in our DNA and a healthy obsession for details, we set about perfecting our favourite jersey. The updates for Espresso 2.0 Jersey include even better fit: close to body but never restricting. We focused a lot of attention on improving the pocket structure, giving even better support and compression while reducing pocket sag and we added a nice finish to the edge.

Of course the 4th zip pocket remains as an essential for valuables. You can find the updated subtle logos in tone on tone color, and our signature red scorpion on the zipper puller.

NOT YOUR OLD-STYLE WIND JACKET

The Aria Jacket has always been one of the most functional pieces in our lineup. Now, it's better than ever. We've refined the fit for improved ergonomics and added reflective details through our new logo and wordmark, making you more visible without compromising style. It's still impossibly light, still blocks the wind where it counts, and still breathes thanks to the mesh side panels.

But now it fits even closer, thanks to updated stretch panels through the sides and sleeves—eliminating flapping fabric and sealing out cold air. It's the kind of jacket you'll wear for the entire ride in mild conditions. And if the temperature rises, it packs away easily into its own side pocket to disappear in your jersey or seat bag.

Classic, evolved. Performance, enhanced.

NEAR WEIGHTLESS PROTECTION

The Aria Vest has always been one of the most versatile pieces in our collection. Now, it's even better. We've refined the fit for a more ergonomic shape and added reflective elements through our updated logo and wordmark, enhancing visibility while keeping the aesthetic clean and modern.

It blocks wind where it matters most, breathes through mesh side panels, and fits close to the body thanks to stretch inserts on the sides and shoulders—no flapping, no drag, no bulk. It's the ideal layer for cool starts, long descents, or unpredictable weather, and when things heat up, it packs down into its own pocket to disappear into your jersey or saddlebag.

Minimal weight. Maximum function. A staple, for every ride.

Progetto X2

Pro-level seat pad for maximum comfort. New seamless skin-care layer is softer against the skin and reduces abrasion. Separate saddle-shaped cushioning layer with progressive damping through high-density foam and gel inserts.

KISS^{™²}

High-performance seat pad for all conditions. Single-piece construction with infinitely variable thickness. Updated with more supportive padding and a softer, stretchier fabric next to the skin.

KISSTRI

Specifically designed for the triathlete. Minimum bulk doesn't get in the way during the swim and run legs. Extra fast drying foam prevents chafing on the bike.
