ESPRESSO 2 W DT
BIBSHORT – REFINED
BY RIDERS, PERFECTED
BY CASTELLI

Our goal was clear: to create the most comfortable and functional bibshort on the market for female riders. No shortcuts, no compromises—just a deep focus on real performance for real women who ride. We started with what we already loved, then pushed every detail further. Improved fit through precise pattern work, refined bib construction for better support and easier wear.

Alongside these updates, we introduced our new logo—a subtle but important step forward in our design evolution. Clean, modern, and made to move with you. This is the result of countless hours of testing, feedback, and finetuning. Built for comfort. Designed for performance. Made for women who ride hard.

# PURPOSE BUILT AND TAILORED FOR WOMEN

The Movement Suit is our most advanced solution for female cyclists who demand performance and precision at high intensity. A seamless jersey-and-bibshort integration built specifically for the female form, it's designed to disappear in motion — letting you ride harder, longer, and with greater comfort. Every detail has been considered.

A shortened leg and sleeve length offers a more natural, proportional fit. The soft, contoured collar reduces pressure and enhances comfort over long distances. We've reimagined the traditional three-pocket layout, shaping them for easier access to nutrition and essentials helping to enhance the suit's profile.

The Movement Suit is a purpose-built piece of performance engineering tailored for women who ride with intensity.

PAPRIKA/WINTER SKY

YOUR FAVOURITE
JERSEY.
REVISED & REFINED.
2.0

When we set out to make the original Espresso Jersey, we wanted the jersey that we'd always reach for no matter if you normally wear an aero race-fit jersey or a more regular cut jersey. We developed a fabric that would allow for a close-to-body fit without being constrictive or feeling tight. Our proprietary Air\_O fabric also offers great breathability and moisture management, and amazingly tests well in the wind tunnel.

With innovation in our DNA and a healthy obsession for details, we set about perfecting our favourite jersey. The updates for Espresso 2.0 Jersey include even better fit: close to body but never restricting. We focused a lot of attention on improving the pocket structure, giving even better support and compression while reducing pocket sag and we added a nice finish to the edge.

Of course the 4th zip pocket remains as an essential for valuables. You can find the updated subtle logos in tone on tone color, and our signature red scorpion on the zipper puller.

KISS<sup>TRI</sup>

Optimized for speed. Built for comfort. Made to break your PR.

Pushing the limits: Our fastest, most comfortable race suit yet

CFD-driven design: Optimized fabric placement and seam construction using advanced CFD (computational fluid dynamics) analysis for maximum aerodynamic performance Engineered ribbed sleeves: Specialized ribbed fabric on the sleeves reduces drag at race speeds, delivering significant savings in CdA

Internal neck ice pocket: Strategically placed pocket to hold ice to help regulate body temperature in extreme heat

Asymmetric GPS pocket: Discreetly placed on the neck for pro-level GPS tracking without affecting aerodynamics

Premio-based shorts: Seamless comfort and exceptional aerodynamics using our proven Premio fabric technology

Ultralight upper body: 50-denier fabric — the thinnest, smoothest we've ever used, for unmatched lightness and aerodynamic efficiency

Active cooling: Designed to keep you cool during the run, with fabric that enables moisture to evaporate directly next to the skin

Integrated rear pocket: Covered storage for gels or energy bars, with easy access and zero drag KISS Tri pad: Designed for comfort and performance across all triathlon disciplines

BLACK

Developed using advanced CFD, every fabric panel and seam placement has been optimized for maximum aerodynamic efficiency. Engineered ribbed sleeves actively reduce drag at race speeds, delivering measurable gains in CdA to give you the edge when it matters most.

Racing in extreme heat? The internal neck ice pocket is strategically positioned to put ice and help regulate core temperature, while the asymmetric GPS pocket ensures seamless integration of tracking devices without disrupting airflow. The lower portion of the suit features Premio-based shorts, offering seamless compression, reduced friction, and exceptional aerodynamics. Up top, the ultra-light 50-denier fabric - our thinnest and smoothest to date - provides unmatched comfort and speed.

Stay cool and dry through every stage, designed to evaporate moisture right next to the skin during high-intensity efforts.

A covered rear pocket offers secure, drag-free storage for nutrition, keeping your fueling streamlined.

The KISS Tri pad delivers all-day comfort and performance across swim, bike, and run so you can stay focused on the finish line, not your gear.

### Progetto X

Pro-level seat pad for maximum comfort. New seamless skin-care layer is softer against the skin and reduces abrasion. Separate saddle-shaped cushioning layer with progressive damping through high-density foam and gel inserts.

## **N**KISS<sup>ar²</sup>

High-performance seat pad for all conditions. Single-piece construction with infinitely variable thickness. Updated with more supportive padding and a softer, stretchier fabric next to the skin.

#### KI55TRI

Specifically designed for the triathlete. Minimum bulk doesn't get in the way during the swim and run legs. Extra fast drying foam prevents chafing on the bike.
